What's Included

At Martin Digital, we don't put time or exposure limits on our photography. We are inspired to capture every moment and detail of your big day. We will even help you work out the details of your timeline, ensuring you get the most out of your day.

A huge amount of time and effort goes into planning a wedding. There are many moments and details that you worked incredibly hard on, that you don't want to be forgotten. Our team is made of experienced photographers who are creative, inspired, and ready to photograph it all. We shoot a minimum of two photographers at every wedding, ensuring maximum coverage.

Every package comes with an engagement session. This session gives you the chance to get a feel for how Martin Digital works, and it also gives us a chance to see how you, the couple, interact with each other. Think of it as a photographic “get to know you.”

You can view all your photos online for the engagement session, wedding, and album design with our proofing gallery. All the galleries are password protected, allowing you to control who gets to see them. To make life just that much easier our ordering system is tied directly to the proofing gallery, allowing anyone you share your password with the ability to order prints. This is great for relatives who travel a long way to see your wedding but can't make that trip twice to see all your photographs.

The albums we build for you are too good to talk about here... See page 19

You can expect to receive your photos, album, and prints within two to four months. We thoroughly go through every photo, hand picking, editing, and delivering the finest quality images. We want your memories to live on for generations.

With over 10 years in the wedding industry we offer much more than photography; we bring an experience. Unlike some other photographers this is our full time job, and we pour everything into it. We work with you every step of the way taking much of the “first time” stress out of planning your wedding.

Why only two packages?

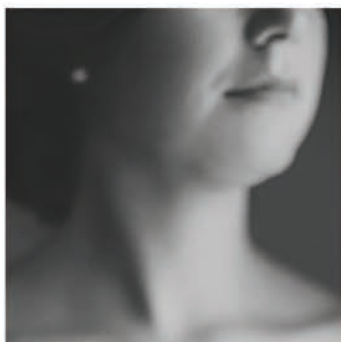

No two couples are the same and no two weddings are the same either. Knowing that every client is different, it is impossible to have a package that is perfect for everyone. At Martin Digital we encourage you to custom build your own unique package. This pricing guide lists everything we offer. What we suggest more than anything is to get prints made so that your grandkids can find them. Print memories on something that will live longer than your laptop.

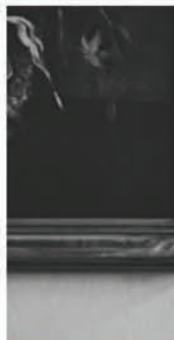

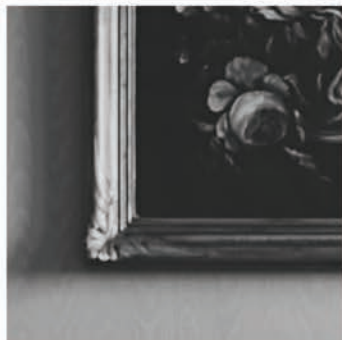

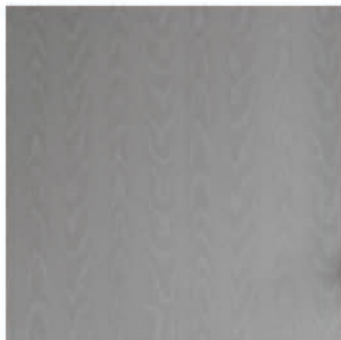

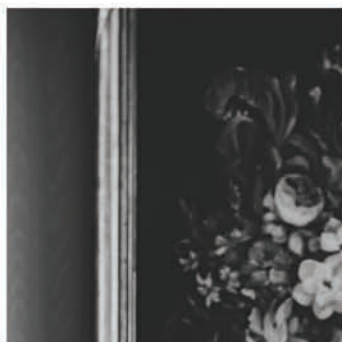

More than “just a photographer”

Throughout the last decade we have seen the good, the bad, and the ugly when it comes to weddings. Nothing happens on time and nothing goes as planned... but strangely we thrive on the challenges. Having the experience of a seasoned wedding veteran standing by your side, you can be confident that we are there to help any way we can.

Standard Prints

With every print you order you also receive a digital web version of the photo, perfect for posting on social media so all your friends and family can see too. Almost all of our standard prints are able to be ordered directly from your online proofing gallery. But for many of the custom items we offer it may be in your best interest to come back into the studio and work through your order to make sure you're getting exactly what you want.

Specialty Prints

Standout Metal, Wood,
Burlap, or Canvas Prints

| | |
|-------------|-----|
| 8 x 10 / 12 | 100 |
| 12 x 12 | 140 |
| 11 x 14 | 120 |
| 12 x 18 | 140 |
| 16 x 20 | 150 |
| 20 x 30 | 250 |

Canvas | comes with a standard width of 1.5 inches.

Metal | is on 1/8 inch metal. We can print with a solid photo, or if you want to see that metal texture, there is a semi-transparent photo style as well. All prints come with 2 inch standout posts that mount your photo straight to the wall.

Wood | is a direct print onto 1/2 inch sheet of wood. These prints are a unique mix of rustic and modern art, with the natural grains of the wood blending with the photo for a beautiful effect.

Burlap | is directly onto a mounted burlap - the mount allows you to switch to whatever frame you want and keeps the fabric sturdy.

*Some images may not work with the specialty surfaces,
we will help guide you in making a decision that gets you
the best looking print that will last for generations*

Finaó albums are all handmade, lay-flat, custom albums, made to order. These are a huge improvement to the typical senior photo panel books of the past. There are many ways to customize your book; the outside is just the beginning.

All of our albums are proofed online for your approval before we send anything to print, ensuring you get the album you want. Don't get stuck using an online template that is full of busy, obtrusive designs that take the attention away from the most important part of your album – the photos.

We make every album a piece of art; clean, simple, and full of personality.

...long enough to remember
all the little things we have forgotten.

We look forward to working with you, Thank you!
